

Harsh Singh

Java Full Stack Developer

hssingharsh6@gmail.com | +91-6393511167 | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Java Full Stack Developer with 2.3 years of experience designing and developing secure, scalable, and production-grade web applications using Java, Spring Boot, React.js, and MySQL. Experienced in building RESTful APIs, implementing Spring Security with JWT authentication and RBAC, optimizing SQL queries, and delivering end-to-end features in Agile environments.

SKILLS

Languages & Core: Java, OOPs, Collections Framework, Multithreading, Exception Handling, Stream API

Backend Frameworks: Spring Boot, Spring Security, RESTful APIs, Microservices, AWS, JWT

Frontend Web: React.js, React Hooks, jQuery, HTML5, CSS3, Responsive UI/UX

Databases: MySQL, Relational Schema Design, Query Optimization

Tools & Practices: Git, GitHub, Postman, Swagger (OpenAPI), JUnit

WORK EXPERIENCE

Further Grow

May 2024 - Present

Java Full Stack Developer

[furthergrow.com](#)

- Developed and maintained scalable full-stack web applications using Java, Spring Boot, React.js, and MySQL in a production environment.
- Designed and implemented secure RESTful APIs using Spring Security, JWT Authentication, and Role-Based Access Control (RBAC).
- Built reusable and responsive React.js components using React Hooks, improving UI consistency and enhancing user experience.
- Optimized MySQL database schemas and complex SQL queries, improving API performance and reducing response time.
- Collaborated with cross-functional teams in Agile/Scrum environments, participated in code reviews using Git/GitHub, and supported CI/CD deployment workflows.

PROJECTS

CareerSneaker AI Resume Builder

[careersneakers.com](#)

Tech Stack: Java, Spring Boot, Spring Security, React.js, JWT, MySQL, REST APIs

- Developed an AI-powered resume builder platform using Java, Spring Boot, React.js, and MySQL to generate ATS-friendly professional resumes.
- Designed and implemented secure RESTful APIs with Spring Security, JWT Authentication, and Role-Based Access Control (RBAC) for user and admin modules.
- Integrated AI-powered content generation for resume summaries, skills, and experience recommendations, improving resume creation efficiency.
- Built responsive and reusable React.js components with React Hooks for real-time resume editing, preview, and template customization.

FlowSpace Workforce Management Platform

[flowspace.co.in](#)

Tech Stack: Java, Spring Boot, Spring Security, React.js, JWT, MySQL, REST APIs

- Developed an enterprise workforce management platform using Java, Spring Boot, React.js, and MySQL to automate business workflows and employee operations.
- Designed and implemented scalable RESTful APIs for task management, workflow approvals, employee management, and reporting modules.
- Built interactive and responsive dashboards using React.js for operational analytics, workflow tracking, and business reporting.
- Optimized backend services, MySQL database queries, and REST API performance to improve scalability, response time, and overall application reliability.

EDUCATION

Veer Bahadur Singh Purvanchal University

2020 – 2024

B.Tech in Computer Science Engineering - Grade: 69.7%
